Subject: Portable "A" Modernization at Slauson Middle School A# 03-119566

To Whom It May Concern,

This letter is regarding "Portable A", see attached site plan and proposed resolution per District Board.

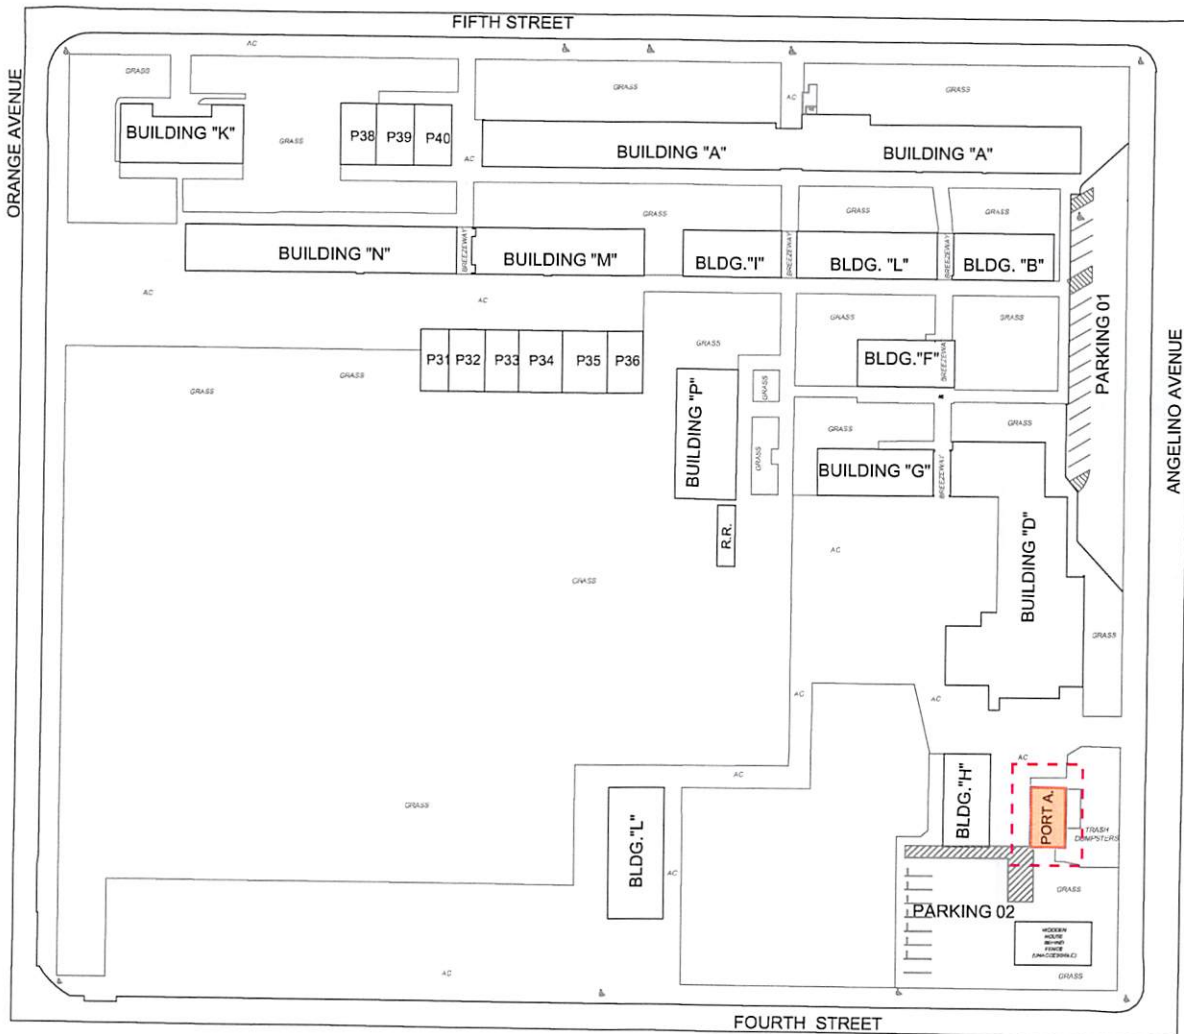

It was brought to the attention of the District and School Board that one of the portables on campus has no DSA records. In order to keep students, teachers, and pupils safe, the District will take proper precautions to ensure safety:

The District will install a fence around the perimeter of the building, to be a distance equal the height of the portable building. This work will be added to the scope of DSA project #03-119566.

Respectfully,

---

Latasha D. Jamal  
Assistant Superintendent, Business Services

Slauson Middle School

- Portable A
- Fencing to be Added
