The Problem with Food Waste

HOW MUCH IS WASTED

40% of all food produced in the US is **wasted**

HOW MUCH THIS IS COSTING...

BOTTOM LINE

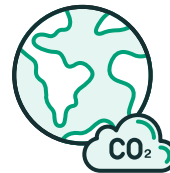

\$408B

Annual loss from wasting food in US

PLANET

8%

of US greenhouse gas is from wasting food

24%

of all US landfills are made up of wasted food

PEOPLE

34M

Americans are food insecure

Legislation makes Copia a necessity for businesses to prove compliance

Food service companies are increasingly required to prove compliance with local and state waste reduction laws (CA SB-1383, NY Food Scraps Law, CT, MA, VT, and RI).

Azusa Unified School District is Making an Impact

Since Azusa Unified School District started donating in July 2022, we've successfully been...

Helping our planet

43k

Pounds of Co2
reduced

Feeding people

8,013

Meals donated
to people in
need

What Does This Mean?

With **1 location**, we have already made amazing strides in feeding our community and reducing our carbon footprint.

Who are Azusa's Donations Serving?

"Thank you for keeping us on our toes with donations, you are very much appreciated. There's so many hamburger patties it's crazy! This will be distributed to our programs across Los Angeles and it is always appreciated"

**Social Model Recovery
Systems**

"We have exciting plans for distributing this donation to the community! During the summer, we do a collaboration with schools to help feed the kids and we usually buy produce to give out to the families. Once you told us about this donation the wheels started turning and we reached out to our partner. The team is out breaking down the donation and distributing now. Watermelon will be a nice treat. We're just excited that we were able to receive a donation!"

**Express Workforce
Foundation**

Thank You!
