2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at https://www.cde.ca.gov/ta/ac/sa/

For more information about the LCFF or the LCAP, see the CDE LCFF web page at https://www.cde.ca.gov/fg/aa/lc/

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at https://dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard)

https://www.caschooldashboard.org/ reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

Murray Elementary is one of eight elementary schools within the Azusa Unified School District. We are a Preschool-6th Grade Structured English Immersion Elementary School that serves approximately 500 students. In 2018 we were recognized as a California Gold Ribbon School putting forth exemplary effort in ensuring all students are ready for 21st century college or careers. We believe that Murray exists to provide an effective educational program and to offer all students opportunities to develop their capabilities to the maximum of their potential so that they become contributing citizens in our changing society. Murray has a strong academic foundation, a parent community that is interested and is actively involved, a faculty professionally skilled and personally committed to meeting the needs of students and a student body motivated to perform well. At Murray, we hold high expectations for every student every day.

Our school has a strong instructional leadership team which includes the principal, resource teacher, intervention teacher, classroom teachers, classified staff, and parents. The teachers and instructional aides continuously receive staff development training in methods and strategies to assist them in meeting the instructional needs of every one of our students in their classroom. Murray's discipline policy and dress code are key factors in providing students with a positive learning environment. Our school staff recognizes the importance of parents and we see them as "partners" in their child's education.

Every classroom has advanced computer and internet technology. All of our classrooms, TK through sixth grade have a chrome cart with enough Chromebooks for each student. In addition, we have ensured that all students have access to a Chromebook at home. Every student has access to our school library which has a collection of over 15,000 books. To meet student needs, all of our teachers and instructional aides work together on a daily basis to plan and provide intervention programs for every student who is not at grade level and to provide enrichment programs for every student that is above grade level. Students also have access to a full time intervention teacher during the day. Our students also benefit from programs such as; Gifted and Talented Education (GATE), College Headed and Mighty Proud (CHAMP), Sobrato Early Academic Language (SEAL), and California Common Core-aligned curriculum. At our school site, you will always find collaboration between our staff, students and parents to fulfill our school vision: "To Provide Every Student With the Best Education Every Day." We also work to live out our mission where we will strive to provide for the academic and specialized needs of students by respecting their differences and abilities to become lifelong learners.

A. Conditions of Learning State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

School Facility Conditions and Planned Improvements

The District takes great efforts to ensure that all schools are clean, safe, and functional. To assist in this effort, the District uses a facility survey instrument developed by the State of California and internal instruments aligned to the state tool. The results of this survey are available at the District's Maintenance Operations & Transportation office.

Murray Elementary School provides a safe, clean environment for students, staff, and volunteers before, during, and after school. Built in 1961, with modernization's made in 2005, the school sits on 10 acres. Facilities span 452,501 square feet and includes a multipurpose room, library, cafeteria, 22 permanent classrooms, 13 portable classrooms, playground, one library, and one computer/innovation lab. The facility strongly supports teaching and learning through its ample classroom and playground space, and a staff resource room.

A scheduled maintenance program is administered by Azusa Unified School District to ensure that school grounds and facilities remain in excellent repair. A work order process is used when issues arise that require immediate attention. Emergency repairs are given the highest priority; repair requests are completed efficiently and in the order in which they are received. Areas of need identified in facilities inspections are addressed through a collaborative planning process developed by school leadership and the district's Maintenance Operations and Transportation department.

During the day and in the evenings, two custodians ensure classrooms, restrooms, and campus grounds are kept clean and safe. Azusa Unified School District administers a scheduled maintenance program to ensure that classrooms and facilities are maintained to a degree of adequacy that provides a suitable learning environment.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

- 1. Smarter Balanced Summative Assessments and CAAs for ELA in grades three through eight and grade eleven.
- 2. Smarter Balanced Summative Assessments and CAAs for mathematics in grades three through eight and grade eleven.
- 3. California Science Test (CAST) and CAAs for Science in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
- 4. College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

Murray's home/school connection is supported by the School Community Liaison. Information and programs are communicated in both English and Spanish through the school handbook, website, flyers, Blackboard telephone messages, social media, and the school's marquee. Murray engages parents in parent/teacher conferences once a year. Parents also receive Academic Progress Reports and standards-based Progress Reports three times a year in English/Spanish.

Parents are invited to attend virtual and in-person Back to School Night, Open House, winter performances, awards assemblies, parent education classes, family game nights, monthly informal principal/parent meetings, and workshops, such as Transition to Middle School. In addition, parents of English Learner students are invited to attend English Language Advisory Committee meetings. Parents are also invited to participate as volunteers in classrooms and throughout the school. In addition, School Site Council meetings in which parent involvement policies, the safety plan, school compact, testing data, budget, and Single Plan for Student Achievement are presented and developed. Parents are given an opportunity to be involved in the decision-making process for programs implemented at the site through our ELAC and SSC advisory committees. Murray Elementary School is involved with several community partnerships in the community including; Azusa Pacific University, the Azusa fire and police departments, Azusa City Library Bookmobile, and Azusa Rotary.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

2022-23 School Safety Plan

The safety of students and staff is Murray's primary concern. The school's disaster preparedness plan includes steps for ensuring student and staff safety during a disaster. Fire and disaster drills are conducted on a monthly basis throughout the school year. Twice a year, the school practices a complete earthquake drill, which includes an entire school evacuation. A storage bin located at the school contains food, water, and other supplies for use during a disaster. Murray has a closed campus. All visitors must sign in at the front office, wear identification tags while on the school grounds and sign out upon departure. Teachers are on duty before school and during recess. Noon aides monitor the campus during lunch and afterschool dismissal to ensure the safety of all students. Teachers, staff, and administrators are trained and practice lockdown procedures to secure the entire campus, Active Shooter procedures, to respond to an active shooter situation.

A Comprehensive School Safety Plan was developed by the Safe School Committee in order to comply with Senate Bill 187 of 1997. The plan provides students and staff with a means to ensure a safe and orderly learning environment. Key elements of the Comprehensive School Safety Plan include the following: monthly facility safety inspections; child abuse reporting procedures; teacher notification of dangerous pupils procedures; disaster response procedures; procedures for safe entering to, and exiting from, school; sexual harassment policy; suspension and expulsion policies; dress code; and discipline policies. The Safe School Committee evaluates the plan annually and updates the plan as needed. School Site Council approved this plan on December 16, 2022.

Professional Development

The District annually holds professional development days in which teachers are offered a broad-based variety of professional learning opportunities in curriculum and instructional practice in support of a continuous cycle of improvement. Professional learning opportunities include grade level and/or content-specific programming on full and partial days as well as after-school opportunities. Student achievement data continues to be the determining factor in the selection of professional learning topics. The primary areas of focus for professional learning in the last five years have been in the area of supporting teachers as it relates to math, and ELA/ELD, history-social science, and science curricula, content standards, frameworks, as well as the use of student data to improve instructional practice. Professional learning is developed and facilitated by district staff, Teachers on Special Assignment, as well as consultants and coaches who specialize in content-area pedagogy. Professional learning was structured in job-embedded workshops and professional learning communities which include collaborative lesson planning. lesson study, classroom observations and coaching support, and student work/data analysis. Professional learning for all teachers includes strategies and pedagogy to support all learners access rigorous, grade-level standards. All professional learning includes a special emphasis on supporting the development of English Learners' development of academic language and literacy. Beginning in 2017 through 2022, all teachers participated in six days of systematic, District-wide professional learning with a focus on instructional strategies in support of our three student success drivers: academic discourse. collaborative practices, and cognitive rigor. Added focus this school year included addressing issues relating to diversity, equity and inclusion, grading practices, social-emotional learning, and effective professional learning community implementation.

Murray Elementary teachers and staff are committed to participating in professional learning communities that support data-driven, student-centered instruction, and exemplify the idea of a continuous cycle of improvement. Murray teachers are provided with a variety of grade levels, half-day, and full-day professional development opportunities where they come together to learn new strategies on how they can best improve student learning. Teachers and staff work with a purpose and passion to ensure that each and every student will be a problem solver, critical thinker, effective communicator, and positive contributor to the community. Our goal is to prepare students to be on track for College and Career Readiness.
